DATE OF CONVERSATION: Feb. 7, 1994

PARTICIPANTS: 1. Harleigh Ewell, Attorney
CPSC Office of the General Counsel
(301) 504-0980 ext. 2217

2. Lynn Boland (216)228-2284

SUBJECT: Tripolymer foam insulation

LOG PREPARED BY: Harleigh Ewell, CPSC/OGC

SUMMARY OF CONVERSATION: Ms. Boland left a message on the voice mail, which I returned. She had Tripolymer foam installed in her home last year and has been having respiratory problems since the weather has been cold enough to keep the house closed up. I read her the 1982 statement that was negotiated for release and told her she could call OS and request the package of material on Tripolymer that has been cleared under 6(b).
